

AflaMaster

Trainer Certification

Are you ready to embark on a transformative journey that will elevate you to the status of an Aflatoun Master Trainer?

Our programme is not just a course; it's a thrilling adventure designed to unlock your full potential and arm you with the skills to lead with impact and excellence. This journey offers you the opportunity to develop your knowledge and skills, helping others along the way. Prepare to push your boundaries and embrace effective leadership.

What is AMTC?

AMTC is a programme designed for facilitators and teacher trainers.

Our innovative approach combines in-person and online learning, ensuring you have a comprehensive understanding of the subject matter (financial literacy, teaching strategies and so on) and a flexible, well-rounded educational experience. You shall engage in supervised activities, including quizzes and reflective exercises, to reinforce your learning and expertise.

What makes this an ideal choice?

AMTC encompasses training, hands-on practice, and constructive feedback, all while offering ample time for growth and continuous support.

This programme thrives on engaging teacher trainers and facilitators in learning activities that mirror the methods they will use with their children and youth. Additionally, AMTC encourages forming learning communities, allowing professionals to share their expertise and experiences systematically. These learning communities and enhanced knowledge and strengthened skills attained through AMTC enable the master trainers to effectively deliver social and financial education training to teachers and educators.

Join a global network of master trainers, receive a prestigious certification, and benefit from experienced instructor support. Make a real-world impact, foster personal and professional growth, and inspire the next generation through social & financial education. Choose AMTC and pave the way to an impactful educational journey.
